

LIE: ABORTION IS JUST BIRTH CONTROL

Calling anything that stops a birth from happening “birth control” is really a term to calm the consciences of people. It’s a lesser term (rather than murder) that doesn’t sound so harsh. But, to call abortion “birth control” is like saying an assassin uses birth control (i.e. bullets). Yes, the bullets take the victim’s life (and all the victim’s future babies) but are bullets really to be considered “birth control”? Likewise, is abortion to be considered birth control?

What most people think is “birth control” really is conception control (i.e. diaphragms, condoms, and any other non-abortive conception control methods). Abortion, in a technical sense, is birth control but only because it “controls” a baby from being born, by murdering the baby. Abortion is to be considered “controlled birthing” rather than birth control.

Abortion was never about conception control, because if it was, then women would have pleaded (or would have taken upon themselves) to castrate their husbands/boyfriends. But they never will. Women and men want all the pleasures of sexual intercourse without the “inconvenience” of a new baby in their lives. But, couples can’t have their cake and eat it too! You can’t have the pleasures of sex and not accept the beautiful end-result of that. The baby is a beautiful result of sexual intercourse—God designed it that way! Abortion (and all abortive contraception) steps in where God says “This is good” and says, “This is bad. I must stop this now”.

Pro-Choicers love to muddy the waters with calling abortion “birth control”. Couples think that it is just like any other non-abortive conception control method). But (Later on in this book, I’ll talk more about it is not. the details of abortion procedures). It isn’t conception control. To label abortion as birth control is like labeling a child molester as an “Appreciator of Children” or a Pornography Addict as “He values women.” A molester “appreciates” children to death and a porn-addict “values” women to death. Likewise, abortion controls a birth to death.
